Paul,

This pertains to task #7437. We discussed suspending our review until we receive a more complete project once a draft EA is issued.

April,

It was good to see you yesterday and it was great to have all the agency folks on site together. As we discussed, Falcon Isle requests that UDOGM suspend review of the NOI and supplemental filing until a draft of the Environmental Assessment is complete and ready for agency review. We hope to have the EA ready for review in the next few weeks. Please let me know if you have any questions or requests in the interim.

Regards, Jim
